

Hydraulic fluid

View product: <http://industrial.lukas.com>

Quality oil, made for powerful hydraulic systems.

LUKAS hydraulic fluids can be used for all LUKAS Industrial products on a universal basis. Because it is resistant to oxidation and reduces wear and tear on tools, this oil has all the characteristics you would expect from a high-performance hydraulic fluid.

Mineral oil:

LUKAS hydraulic fluid on a mineral oil basis meets the requirements of DIN 51524.

Environmentally friendly synthetic oil:

Important: Biodegradable LUKAS synthetic oil can be mixed in any ratio with commercially available hydraulic fluids based on mineral oils .

To protect the environment, we recommend emptying all oil containers and cleaning them if necessary; this includes the tank on the hydraulic pump, the hoses and the attached tool.

LUKAS

GERMANY'S FINEST HYDRAULICS

LUKAS – the name in hydraulic tools.

High-quality hydraulic tools for industrial applications: LUKAS has developed and produced them in Germany since 1948. Wherever you need to move heavy loads, with our products you have a strong partner at your side. Only LUKAS offers these advantages:

German quality

With few exceptions, LUKAS products are developed and manufactured from start to finish in Germany. That is the only way we can maintain our high standard of quality and monitor our entire production chain. Our highly skilled team works with great attention to detail - and is always a step closer to our customers.

The original

In 1948, LUKAS was the first brand to offer high-quality hydraulic tools for industrial applications. Since then our engineers have always kept a step ahead of developments so we can offer the guaranteed best quality.

Unique customer focus

LUKAS is the only manufacturer to offer you customer-oriented direct sales. Our experienced sales team can give you excellent advice because they understand your needs and can offer you tailored solutions.
